

14 June 2021

Dear Parents/Carers,

### **Catching up on Missed Opportunities**

Over the past couple of years Covid has limited schools' ability to offer opportunities to enhance their curriculum such as residential and trips. The benefits of visiting new environments and learning from experts in a particular field include children have opportunities to learn by doing, engage with new people, places, and buildings in new ways, gain a cultural understanding and develop their confidence and empathy. Broadstone Schools are committed to providing a range of activities that will supplement in-school learning.

With that in mind, we are excited to announce that Wise Up Team Building and the Science Dome will be visiting both First and Middle School this term. Wise Up Team Building offer problem solving activities throughout the day which will challenge the children to work together and discover skills that they did not know they had. The Science Dome is a large inflatable space where children are teleported to a 360° learning experience. Please be assured that all COVID guidance will be followed for these two events.

As families have contributed to the equipment and experiences for the Summer Term the Science Dome will be included in this money. However, the Wise Up Team Building event we are asking for **£7.09 per child**. This is available for you to pay through your child's Parent Pay account **by 18 June**.

We hope the children enjoy these fantastic activities.

Best wishes

Mrs Lord
