Accessibility Annual Review and Action Plan

Aim

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which pupils with disabilities can participate in the curriculum
- Improve the physical environment of the school to enable pupils with disabilities to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to pupils and parents
- Improve inclusivity of the setting

Our schools aim to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind. We are committed to providing an environment that enables full curriculum access, that values and includes all pupils, staff, parents and visitors regardless of their educational, physical, sensory, social, spiritual, emotional and cultural needs.

The plan will be made available online on the school website, and paper copies are available upon request.

Our schools are also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The schools support any available partnerships to develop and implement the plan.

This plan should be read in conjunction with Castleman Academy Trust's Equality Policy.

Our schools' complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, the complaints procedure sets out the process for raising these concerns.

We have included a range of stakeholders in the development of this accessibility plan, including staff and governors of the school.

Our accessibility arrangements will be audited on 3 yearly basis which will identify areas of focus moving forward. The first audit will take place in Autumn 2024.

Legislation and guidance

This document meets the requirements of schedule 10 of the Equality Act 2010 and the Department for Education (DfE) guidance for schools on the Equality Act 2010.

The Equality Act 2010 defines an individual as disabled if they have a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on their ability to undertake normal day to day activities.

Under the Special Educational Needs and Disability (SEND) Code of Practice, 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments, such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a pupil with disabilities faces in comparison

with a pupil without disabilities. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

This policy complies with our funding agreement and articles of association.

Action plan

The below action plan sets out the aims of our accessibility plan in accordance with the Equality Act 2010.

Equality Impact Assessment

This policy has been reviewed with the equality impact considerations as laid down in the school's Equality Policy.
